design + development

Award winning, highly creative, multi-faceted professional with extensive experience in design and development. Excellent organizational skills and strong leadership abilities. Demonstrated success in creating web and print projects customized to meet clients' specific needs

Recognized for skills necessary to work well with people at all levels and a commitment to excellence with the ability to make key decisions and achieve tight deadlines under pressure. Focused on meeting or exceeding goals and objectives in a timely and cost efficient manner.

selected achievements

Designer / Developer

Amélie Company

Worked with a team of 3 other designers to produce numerous print and web projects with budgets of over \$50,000. Was the proprietary developer for all interactive projects. Recipient of 2 Webby Awards and the MAKE Magazine Self-Promotion award.

Marketing and Design consultant

Glass Technology

Commissioned to create a new branding and marketing campaign for an industry leading developer of glass and acrylic refinishing products. Updated the company's marketing and instructional print materials, which were incorporated into the company's marketing and advertising worldwide.

Designer / Developer

Worked on a contract basis with local businesses to create affordable marketing and branding solutions. Recipient of numerous Golden Web Awards, Plastic Pilot Awards and BioMutation Site of the Day Awards.
